LIGHTNING ICONS

WX-500

Lightning Icon	Color	Used on Pages	Additional Requirements
	White	MAP (TOPO-ON or TOPO-OFF)	The small solid icon is used when the display selected range is 25 nm or greater.
	White	WX, TRFC, TERR	
	White Outline	MAP (TOPO-ON or TOPO-OFF)	The large outlined icon is used when the display selected range is less than 25 nm.
	White Outline	WX, TRFC, TERR	

WX-1000E

Lightning Icon	Intensity Level	Color	Used on Pages	Comments
	1 (Light)	White with black border	MAP, WX, TERR	The small solid icon is used when the display selected range is 25 nm or greater. <i>The WX-1000E indicates areas of lightning detected (not individual discharges). Light activity (level 1) is an area with up to 8 strikes/minute; moderate (level 2) is an area with 9-25 strikes/minute and heavy (level 3) is an area with 26 or more strikes/minute.</i>
	2 (Moderate)			
	3 (Heavy)			
	1 (Light)	White with black border	MAP, WX, TERR	The large outlined icon is used when the display selected range is less than 25 nm. <i>The larger icon reminds the user that the accuracy of lightning placement is not as good as that suggested by the map scale.</i>
	2 (Moderate)			
	3 (Heavy)

SUBSCRIBING TO VDL SERVICES

NOTE: The following details require selection of a KDR-510 as the source for datalink weather data.

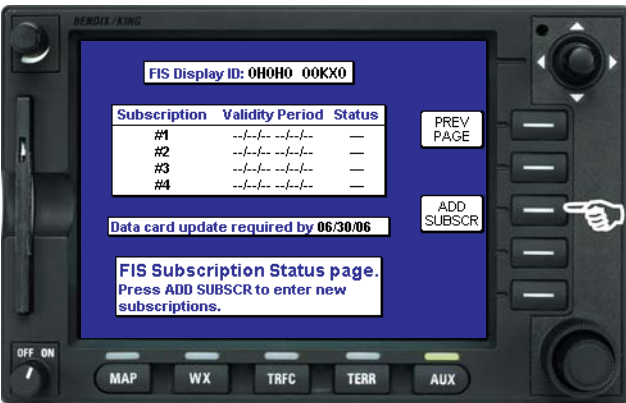

SETTING UP A VDL SUBSCRIPTION

Note the FIS Display ID and contact Wingman Services at www.bendixking.com or call 1-800-247-0230. This ID is used to obtain the Subscription Code. After obtaining the Subscription Code press the **ADD SUBSCR** Key.

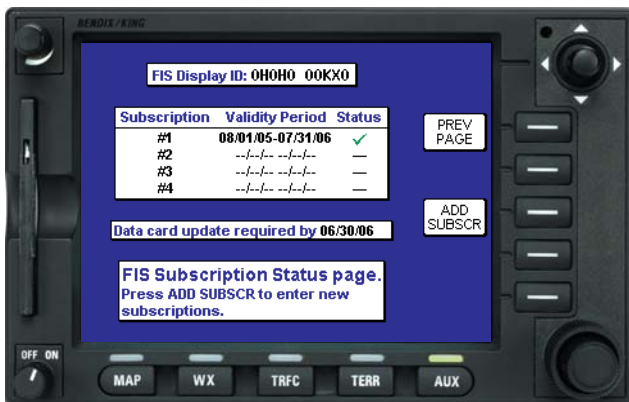

Use the inner knob to enter characters and the outer knob to move to the next field.

After the last character is entered, press the **ENTER** Key. After the subscription is accepted it will be displayed.

CHECKING VDL SUBSCRIPTIONS

FIS Display ID: 0H0H0 00KX0

Subscription	Validity Period	Status
#1	02/01/02-05/01/02	✗
#2	06/01/05-07/31/06	✓
#3	--/--/-- --/--/--	—
#4	--/--/-- --/--/--	—

PREV PAGE

ADD SUBSCR

Data card update required by 06/30/06

FIS Subscription Status page.
Press ADD SUBSCR to enter new subscriptions.

Symbol	Status	Description
—	Unknown	The system time is not known or no subscription is programmed.
🕒	Future	The current system time is prior to the displayed starting date. This subscription is not valid for enabling access to FIS today but it will become valid at some point in the future.
✓	Valid	The current system time is after the displayed starting date and before the displayed ending date.
👉	Almost Expired	The current system time is within seven (7) days of the displayed ending date.
✗	Expired	The current system time is beyond the displayed ending date.

NOTE: Only the validity period for subscriptions is shown on the display. To determine which products are available with each subscription, access the account on Wingman Services at www.bendixking.com.

XM WX SUBSCRIPTIONS

An XM subscription must be set up to receive XM WX services. This process involves accessing the XM Radio website and a toll-free phone call to XM Radio.

SETTING UP AN XM WX SUBSCRIPTION

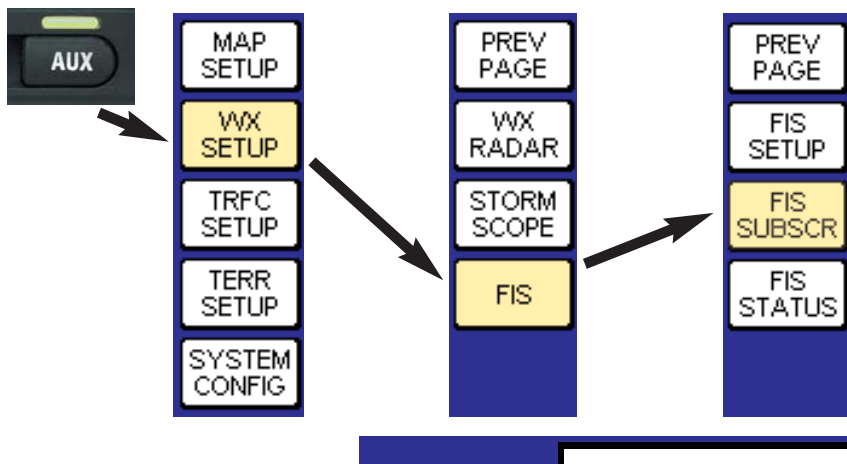

NOTE: The following details require selection of an XM receiver (such as a KDR-610) as the source for datalink weather data.

Setting up an XM WX subscription can be accomplished by following these steps:

1a. Retrieve the 8-digit ID from the KDR 610 label (should be attached to the opposite end of the receiver from the connectors)

OR

1b. Apply power to the display and receiver, select the AUX key, the WX Setup softkey, the FIS softkey, and finally the FIS Subscription softkey. Record the 8-digit receiver ID displayed at the bottom of the FIS Subscription Status page.

2. Go to the website www.xmradio.com/weather to select your weather subscription package.
3. Apply power to the XM receiver, and place the receiver's antenna where the signal can be received from the XM satellites. Make certain the antenna has a good view of the southern horizon.
4. With the Receiver ID and desired subscription package in hand, contact XM Radio at 1-800-985-9200 for assistance in activating your receiver and setting up a weather product subscription. The receiver should remain in view of the satellites during the subscription process.

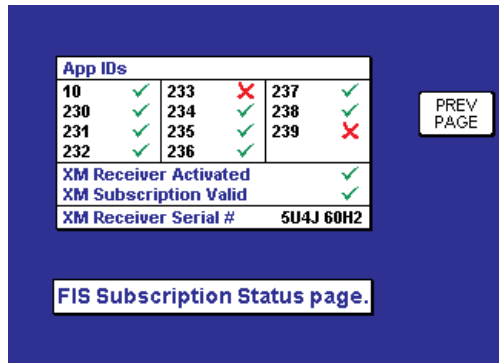

- Verify the activation of the receiver and the subscription validity by selecting and viewing the “FIS Subscription Status Page” on the KMD screen.

If for any reason the receiver was not exposed to the XM signal within the initial 24 hour broadcast period, or is not successfully authorized for some other reason, a subsequent 15 minute resend of the subscription information can be obtained. Get the receiver ID (instructions in step 1a or 1b above), go to the website <http://www.xmradio.com/refresh/>, and follow the instructions.

CHECKING XM WX SUBSCRIPTIONS

To check the FIS XM subscription and receiver status, apply power to the display and receiver, select the **AUX** key, then the **WX SETUP** softkey, the **FIS** softkey, and finally the **FIS SUBSCR** softkey, as in step 1b previously.

The Application IDs are displayed along with the receiver activation and subscription status. The Application IDs provide the groupings of products that are part of the subscription package. Green checkmarks indicate those App IDs or product groups that are contained in the subscription package for the XM receiver. Contact XM Radio at 1-800-985-9200 with the App ID information if the subscribed products are not received and displayed.

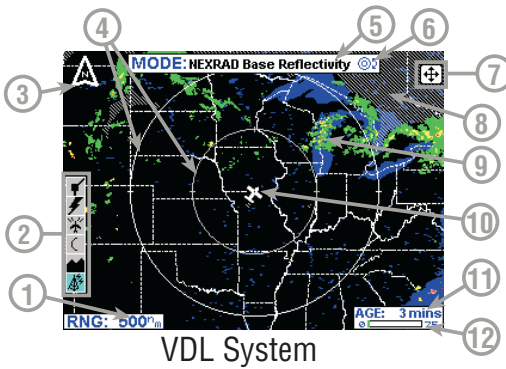

Symbol	Subscription Status	Description
— (white)	No Information	The XM FIS receiver subscription information message has not been received.
✗	Not Subscribed	The user is not authorized for the Application ID.
✓	Subscribed	The user is authorized for the Application ID.

App ID	Product
App ID 10	Radar Coverage, METARs, County Warnings, City Forecasts
App ID 231	NEXRAD Radar, TAFs, Freezing Level, TFRs
App ID 232	SCITs, Lightning, Storm (Echo) Tops, Surface Precipitation, Winds Aloft, AIRMETs, SIGMETs, Cloud Tops

NEXRAD PAGE

- 1 **Range Scale** - Indicates selected range.
- 2 **Available Functions** - Displays icons representing data available (black) and displayed (color).
- 3 **North Pointer** - Indicates north.
- 4 **Range Rings** - Outer ring radius is selected range and inner ring radius is one half the selected range.
- 5 **MODE** - Indicates the weather product being displayed.
- 6 **Control Knob Icon** - Displayed when the Control Knobs are available for cycling through the graphical weather products.
- 7 **Joystick Label** - Indicates joystick is active and can be used to pan map.
- 8 **No Coverage Area** - Crosshatch pattern indicates area of no coverage.
- 9 **Precipitation** - NEXRAD precipitation returns.

- 10 **Aircraft Symbol** - Indicates present aircraft position and heading (if available) or track.
- 11 **Age of Data** - Age of the data based on current time minus NEXRAD issue time.
- 12 **Age Status Bar** - Indicates percentage of age versus elapsed time before expiration. The bar will be green the first 50% then turn yellow.

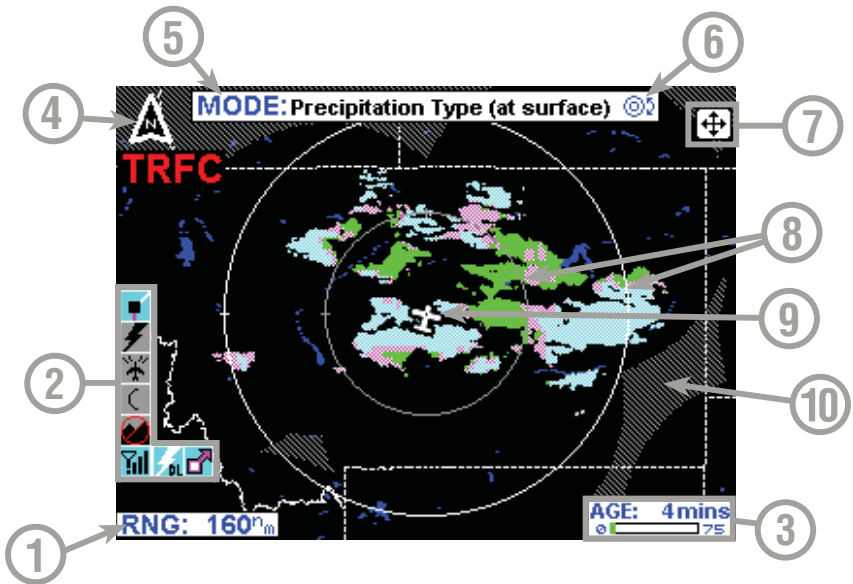

NEXRAD INTENSITY

Precipitation intensity is depicted using colors as follows:

Magenta	Intense	Level 5-8	50+ dBz
Red	Heavy	Level 3-4	40-50 dBz
Yellow	Moderate	Level 2	30-40 dBz
Green	Light	Level 1	15-30 dBz (VDL) 10-30 dBz (XM)

- 4 **MODE** - Indicates the weather product being displayed.
- 5 **Control Knob Icon** - Displayed when the Control Knobs are available for cycling through the graphical weather products.
- 6 **Joystick Label** - Indicates joystick is active and can be used to pan map.
- 7 **Range Rings** - Outer ring radius is selected range and inner ring radius is one half the selected range.
- 8 **Aircraft Symbol** - Indicates present aircraft position and heading (if available) or track.
- 9 **Weather Watch Boundary** - Color coded line indicating the boundaries of an Alert Weather Watch.
- 10 **IN** - Indicates the current aircraft position is "IN" a severe thunderstorm watch area.
- 11 **Weather Watch Color Key** - Colors indicating Alert Weather Watch type.

FIS TEXT PAGE

- 1 **Text Field** - The translated METARS data is displayed first in this window followed by the encoded weather report is displayed in this field.
- 2 **Available Functions** - Displays icons representing data available (black) and displayed (color).
- 3 **Selected Report Info** - Displays name, city and state of selected report.
- 4 **Selected Area Identifier** - Displays the identifier of the area selection.
- 5 **Area Selection** - Pressing the CHANGE AREA soft key cycles between Destination, Flightplan WPT, Nearest and User Defined.
- 6 **Mode** - Pressing the MODE key will display the SELECT FIS PRODUCT Menu.
- 7 **UTC** - Current UTC time.
- 8 **Report** - Each horizontal movement of the joystick will move the cursor over the next report in the AVAILABLE REPORTS field.
- 9 **Available Reports** - Shows available reports based on the selection in the AREA field. Special, urgent or amended reports are highlighted in yellow.
- 10 **Scroll Bar Left/Right** - Indicates there are more available reports than can be displayed on the screen. Move the joystick left/right to cycle through the reports.
- 11 **Change Area Soft Key** - Cycles the AREA field between Destination, Flightplan Waypoint (FLPN WPT), Nearest and User Defined.
- 12 **METAR Map Soft Key** - When this key is pressed the graphical METAR page is displayed with the map centered on the selected METAR. This is only available when valid data for graphical METARS is being received.
- 13 **Age of Report** - Age of report based on UTC time minus time of report. The bar indicates percentage of age versus elapsed time before expiration. The bar will be green the first 50% then turn yellow.
- 14 **Knob Function Label** - Indicates the knob function is set to DATA input (USER DEFINED) or SCAN data (FLPN WPT).
- 15 **Scroll Bar Up/Down** - Indicates there is more available data in this report than can be displayed on the screen. Move the joystick Up/Down to cycle through the reports.

TRAFFIC AVOIDANCE

AVAILABLE TRAFFIC FUNCTION ICONS

Icon	Description
	Standby traffic sensor being displayed.
	Active traffic information being displayed.
	Traffic sensor in standby mode, not being displayed.
	TIS service not available.
	Traffic sensor active, not being displayed.
	Traffic sensor data invalid / not being displayed.

TCAS/TAS SYMBOLOGY

NON-THREAT TRAFFIC

PROXIMITY INTRUDER TRAFFIC

TRAFFIC ADVISORY (TA)

RESOLUTION ADVISORY (RA)

“NO-BEARING” TRAFFIC

- 1 Display Range - RNG:###nm
- 2 TAS (TCAS) Operating Mode - TAS (TCAS) TST, TAS (TCAS) SBY, TA Only, TA/RA or TAS (TCAS) Fail
- 3 Available Functions - Displays icons representing data available (black) and displayed (color)
- 4 Current Flight Level - FL:###
- 5 Altitude Volume - NORMAL, ABOVE, BELOW or UNRESTRICTED (not available in all configurations)
- 6 Traffic Intruder Symbols - Indicates type of traffic, altitude of traffic and vertical trend of traffic.
- 7 "No Bearing" Intruder Display Area - AA #.#NM ±XX↓ (Where AA is TA or RA)
- 8 Range Rings - Outer ring radius is selected range, inner ring radius is always two nautical miles
- 9 Outer Knob Icon - Shows current knob selection
- 10 Aircraft Symbol - Stylized airplane indicating aircraft position

TIS SYMBOLOGY

PROXIMITY INTRUDER TRAFFIC

PROXIMITY INTRUDER NON-ALTITUDE REPORTING (NAR) TRAFFIC

TRAFFIC ADVISORY (TA)

TRAFFIC ADVISORY NON-ALTITUDE REPORTING (NAR)

TIS Capable Mode S Radar Sensor Sites

Covered by US Pat. 6512975

- 1 Display Range - RNG:##nm
- 2 TIS Operating Mode - TIS ON, TIS OFF or TIS FAIL
- 3 Available Functions - Displays icons representing data available (black) and displayed (color).
- 4 Current Flight Level - FL:###
- 5 Display Orientation - When in magnetic heading-up orientation, **Mag###° Hdg**; when in magnetic track-up orientation, **Mag###° Trk**; when heading or track is not available from the system, **No Hdg or Trk**. The received traffic bearing and ground track is corrected when the system has heading or track.
- 6 Traffic Intruder Symbols - Indicates type of traffic, altitude of traffic, vertical trend of traffic and ground track of traffic.
- 7 Range Rings - Outer ring radius is selected range, inner ring radius is always two nautical miles.
- 8 Knob Icon - Outer knob selects TIS ON or OFF. Inner knob selects MUTE ON or MUTE OFF for muting of "TIS Unavailable" audio message.
- 9 Aircraft Symbol - Stylized airplane indicating aircraft position.

TERRAIN AVOIDANCE

AVAILABLE TERRAIN FUNCTION ICON

Icon	Description
	EGPWS with warnings enabled, being displayed.
	EGPWS with warnings disabled, being displayed.
	EGPWS with warnings enabled, not being displayed.
	EGPWS with warnings disabled, not being displayed.
	EGPWS data invalid / not being received.

- 1 **Display Range - RNG:####nm**
- 2 **Terrain Awareness State** - Displays **EGPWS TEST** when self-test is active, **TERR FAIL** when terrain is INOP due to a fault, **TERR N/A** when terrain is not available (no fault) and **TERR INHBT** when Terrain Awareness Warnings have been manually inhibited. The terrain picture will be blacked out if the state is **TERR FAIL** or **TERR N/A** (Some installations will also be blacked out for **TERR INHBT**).
- 3 **Aircraft Symbol** - Stylized airplane except in north-up mode when it is a plus symbol. Indicates present position.
- 4 **Outer Rotary Knob** (not present for all installations) - Allows selection of Normal (NRM), Test (TST) or Settings (SET) mode. Default is Normal.
- 5 **Range Rings** - Outer ring radius is selected range, inner ring radius is one half the selected range. Value of inner ring displayed at bottom of inner ring in 360° views and at the left edge of the inner ring in 120° views.
- 6 **EGPWS Peaks Elevation** (not present for all installations) - Maximum peaks elevation displayed over Minimum peaks elevation, #####
- 7 **GPS Flight Plan Overlay** - Current GPS flight plan.
- 8 **Display Orientation** - When in magnetic heading-up orientation, **Mag###° Hdg**; when in true heading-up orientation, **Tru###° Hdg**; when in magnetic track-up orientation, **Mag###° Trk**; when in true track-up orientation, **Tru###° Trk**; when in north- up orientation, **NORTH**
- 9 **EGPWS Geometric Altitude** (not present for all installations) - ##### **MSL** (Mean Sea Level) or ##### **GSL** (Geodetic Sea Level) depending on system configuration.
- 10 **Check Altitude Flag Window - CHECK ALT**
- 11 **Icon Bar** - Icons representing data available (black) and displayed (color).
